

High-Performance Production from Script-to-Screen

Since 1984 MEGCOMM Films has delivered high-quality film, video and multimedia production to businesses, institutions and TV commercial clients in the Northeast.

MEGCOMM is committed to providing production values more commonly associated with New York and Los Angeles studios and is clearly focused on creating projects that PERFORM for clients.

When a client selects MEGCOMM, they can be confident they're working with the most experienced pros in the region.

"I was searching for a partner to enhance our client's image. Thanks again for the talent, technology, energy and resources to make it happen. My experience was a MEGA-success."

- John Bartorillo, President
Maslow Lumia Bartorillo Advertising

Creative Services

CONCEPT • SCRIPTWRITING
STORYBOARDS • GRAPHIC DESIGN

A great concept and script are essential to deliver the level of performance MEGCOMM achieves for clients.

Studio president and principle stockholder, Mike Gorga, is in his 4th decade in the business. Mike's creative grabs the viewer's attention and interest visually, aurally and emotionally...essential to deliver YOUR STORY effectively.

Mike has experience working with local, regional, national and international accounts with projects for Armstrong, Federal Express, Sanofi Pasteur, Allied Services and Wyoming Valley Healthcare among his credits.

Team: Joe D'Angelo, Tom Mooney, and Mike Gorga

Whether on-location or in our 30 x 30 studio, our approach is to deliver the absolute best production values possible. Lighting is what separates great shooting from "run and gun" style production. At MEGCOMM we pair the talents of visual artists with state-of-the-art 1080p High-Definition Cameras, all the lighting and grip and sound equipment to deliver Hollywood-style productions to meet our client's budgets from major actor/spokesperson-based projects to economizing clients on the tightest of realistic budgets. A simple production done really well beats a poor attempt at a complicated project anytime.

High-Definition 1080p Production Shoots

- In-Studio & On-Location
- 1080p High Definition Shooting
- Grip & Electric Truck
- Complete wireless sound gear
- Teleprompter w/computer

Editing Room A @ MEGCOMM

Post-Production Digital Editing

- Adobe Premiere Pro
- Adobe After Effects
- Final Cut Pro 6
- Two editing rooms
- Adobe Audition Sound

Post-production/editing is where all the elements that make up a production are artistically composed into a dynamic and high-performing project. At MEGCOMM we combine HD picture quality, the most flexible editing software and the most empowering special effects applications... with highly experienced creative editors...resulting in a creative venue unmatched in the region. From editing, to motion graphics, to sound and music and output for the WEB, digital delivery to TV stations or file prep for smart phones and tablet devices...it's all here.

Graphics, Animation, Digital Compositing & Broadcast Design

Nothing grabs viewer attention like a snappy open to a video and nothing presents information more clearly than artistically designed and animated charts, mechanical functions and composites of video with graphics and animation. At MEGCOMM, it's all in-house with a single source partner in getting your message out with the most effective high-impact medium.

AWARD WINNING
Since 1984

DVD Authoring & Web Development

Through our partnership with Muz Web Solutions, of Atlanta Georgia, our studio has added development of high-performing website design to our NEPA-based DVD Authoring capability. Muz founder Joshua Muzyka has created many websites for Miami and Atlanta-based clients, as well as the MEGCOMM site re-design.
